## The Old Street Angel London

This site is located on City Road – A501 approx 150metres North of Old Street Roundabout directly opposite Moorfields Eye Hospital.

Head on travelling from Old Street towards The Angel and Kings Cross this is a well known and extremely busy London traffic route both for public and commuter transport and also targets northbound traffic heading into trendy Hoxton up East Road A1200.

In addition the site benefits from being head on and directly in front of a traffic control system which ensures both slow moving traffic and long dwell time.

The site benefits from a high pedestrian footfall due to its close proximity to Moorfields, Old Street underground and is also close to a number of well known bars and restaurants including Jamie Olivers '15' restaurant which is a stone throw away.
